Subject: Solar Panels

To whom it may concern,
I was a member of the Architectural
Committee when Jerry Griffin's solar
panels were approved.
Legally we cannot deny a member the
ability to instal solar panels. We all voted
to approve the positioning of Jerry's
panels as they were placed very low on
the property and didn't obstruct any
views.

Sincerely,
Mark Herndon
Homeowner, 52 Avenida de la Paz

It be better If the solar
array was <u>behind</u> his
house? The site plan shows it
pointing right at Ave de la
Paz.<div>
</div><div>Steve<
</div></div>

I do not have a problem with
the solar array and approve
its placement as is.
Katherine
